

High shear capacity BOP

Product applicable: It is appropriate to shear high performance, thick walled drill pipe and casing.

Product Features

- Using large cylinder or equipped tandem booster to enhance the shear force
- Can realize shearing high level drill pipe under pressure
- Reliable sealing performance, can shear multiple times;
- The shear blade can disassemble and change

V-150

Max shear drill pipe level

25000psi

Max sealing pressure

177°C

Highest Temperature Class
